

TIME CONTROL

An application that allows employees to record their time and absences in an autonomous, simple and agile way, considerably reducing the company's costs associated with this process. A tool fully adapted to mobile devices: any device, any place, any time.

To whom is it addressed?

- All companies that want to know what is going on in their business, as with the employee clocking-in they will be able to know how many hours they work and where they are.
- In addition to covering legal requirements, as companies must keep time records for all employees, in order to ensure control of overtime.

What technological solution does it cover?

- It provides a unified employee experience, regardless of the HR backend systems used. It is built on UI5.
- Compatible with Android and iOS.

Advantages

- Records hours of presence or absence of workers indicating different reasons.
- Geolocation of signings.
- It facilitates the management of transfers, as well as their administrative entry.
- Native integration with SAP: Peer registration, time evaluation, generation of attendances, absences and quotes, as well as reflection in the payroll.
- Multi-language.

Why OREKA IT ?
